## Q&A

### What makes your business unique?

Customers tell us they just love being in our space. We created a haven to just sit and “be.” We provide free Wi-Fi all day, comforting spaces and a welcoming bar. Our customers love the taste of our water! We went to great expense to install a special water purification system offering pure ambient, pure chilled and pure sparkling water. Guests can help themselves and fill up their own water bottles.

### What would you like customers to know about your business?

We were voted Best Vegetarian Cafe by *Minneapolis.St.Paul* magazine our first year. We enable customers to customize their coffee drinks by offering almond milk, hemp milk, rice milk, soy milk and coconut milk. We only sweeten with organic agave.

# Peoples Organic Coffee & Wine Cafe

3545 Galleria, Edina, 952.426.1856  
peoplesorganic.com

**Hip. Innovative. Inviting.**

Peoples Organic is all about fresh, local, organic and sustainable, casual food served in a setting that is very Parisian. They began as an organic coffee concept cafe serving baked goods made fresh on site. Their wine bar and local artisan draft beers are essential complements to their small-batch roasted, fair-trade, organic espresso drinks. Blue cheese stratas and goat cheese omelets are served all day, along with nurturing soups, organic salads and artisan grilled sandwiches.
