

PEOPLES ORGANIC

ANNOUNCEMENT:

Peoples Organic Cafe Wayzata to Relocate

WAYZATA, MN (July 1, 2016) Peoples Organic Coffee and Wine Cafe has announced plans to close its Wayzata cafe, located at 765 E. Lake Street, at the close of its lunch business on Wednesday, July 6, in order to relocate the restaurant to a new space. The cafe has been serving the Wayzata community for over 2 years and will look forward to continuing the tradition once the new location has been determined. In the meantime, operations in Minnetonka Mills located at 12934 Minnetonka Boulevard remain open.

"We are deeply grateful to our customers, staff, and the Wayzata community for all the support and patronage" said owners Diane and Stu Alexander. "We are exploring spaces to bring our customers their next favorite Peoples Organic location. While we loved our lake street location, we received an unsolicited offer for the space, and determined for a myriad of reasons that now was the right time to research other locations that fit our brand." The Peoples Organic in Minnetonka Mills is undergoing renovation in order to improve efficiencies and aesthetics in the cafe. The newly renovated space will keep warm, inviting style with a new kitchen and even more ambiance in the garden patio. Renowned for paying attention to the seasons and offering a variety of organic fare, this location has been in operation since 2012.

"Our loyal customers mean so much to us, we are making changes to better serve them, appeal to a new generation of guests, and make a greater impact on the community" explained Alexander. "We are excited for all the possibilities at Minnetonka Mills after the renovation to bring even more people healthy farmtotable options." Minnetonka Mills is now serving the new delicious grassfed whey protein shakes that were enjoyed at the Wayzata location. The cafe will bring back the Big Red Lentil Burger and an array of new daily specials to entice the palate, while keeping traditional favorites including the Buddha Salad and the Bison Burger. Guests can relax with a local craft beer on the patio, grab a cup of organic coffee for their commute, or enjoy date night specials on Tuesdays. Live music will also be added to the Minnetonka Mills experience. Please visit www.facebook.com/peoplesorganicminnetonka for more details.
